

About Us:

Corporate Overview

Shoplogix™ believes that **manufacturing is the backbone** of our way of life. That is why we help manufacturers **improve resource usage and increase profitability**, while supporting their competitive advantage.

ABOUT US

Shoplogix™ believes that information is the first step in achieving a competitive advantage, and we make great innovative solutions that help manufacturers acquire and use **real-time accurate**, and easy to use **actionable information**, to **drive decision making**.

Founded in 2002, Shoplogix™ is the leading developer of manufacturing performance management solutions designed to enable manufacturers to **reduce operating costs, increase manufacturing profitability** and **drive rapid time to value**.

THE SHOPLOGIX™ APPROACH

Our mission is to provide a platform of visibility into production efficiency, allowing manufacturers to improve profitability. This is done through the use of **Machine Truth Information, Operator Engagement** and by providing **Visibility** into every level of the organization.

We believe that increased throughput is the most profitable way to increase production in any facility; however this is difficult to achieve without being able to see into the manufacturing **'Black Box'**. With the real-time visibility that manufacturers gain through using the **Shoplogix™ Plantnode® Performance Suite**, it becomes possible to improve the throughput of any or all lines in a plant.
