

Distribute centrally controlled messages across plants, lines or machines automatically to achieve quick actions and resolutions on critical, unplanned events. Shoplogix message module allows for messages to be broadcast from one central location to desired plants, machines and people to increase awareness of bottlenecks, emergencies, and company announcements.

USE MESSAGING TO INCREASE COMMUNICATION, COMPANY CULTURE AND ENGAGEMENT ON THE SHOP FLOOR:

Traditional shop floors suffer from limited manual communications that can easily be missed, or incorrect. Ensuring all levels of the shop floor have accurate and consistent information communicated in a timely matter can prove difficult without a centrally controlled messaging system.

With Shoplogix Messaging...

Connect with team members in a more relevant way by broadcasting production and company updates on Shoplogix dashboard, increasing visibility of messages throughout the shop floor. With Shoplogix messaging module, messages can be tied into production processes to ensure the right information is delivered at the right time. For example, scheduled maintenance work can be broadcast ahead of time as well as quality notices. Desired expiration dates can also be set to control the amount of time the messages are displayed to ensure relevancy.

LEVERAGE EXISTING DATABASE, EXTRAPOLATE AND SHARE CRITICAL INFORMATION FROM OTHER SYSTEMS FOR A FULLY INFORMED SHOP FLOOR:

Sharing information and messages from several different systems and areas is time consuming causing and contributes to wasted resources across the shop floor.

With Shoplogix Messaging...

Messaging can be integrated with MES, PLC, iQS, Web, Database or ERP systems to ensure information is consistent and visible. This integration helps to extrapolate and share data from other systems for increased productivity, reduced resolution time and greater visibility into day to day operations. Shoplogix alerting and messaging can be used in conjunction to display machine alerts, quality notices, safety procedures all at the same time.

BECOME PAPERLESS BY ALLOWING WEB-PAGES OR PDF DOCUMENTS TO BE ACCESSED THROUGH SHOPLOGIX MESSAGING:

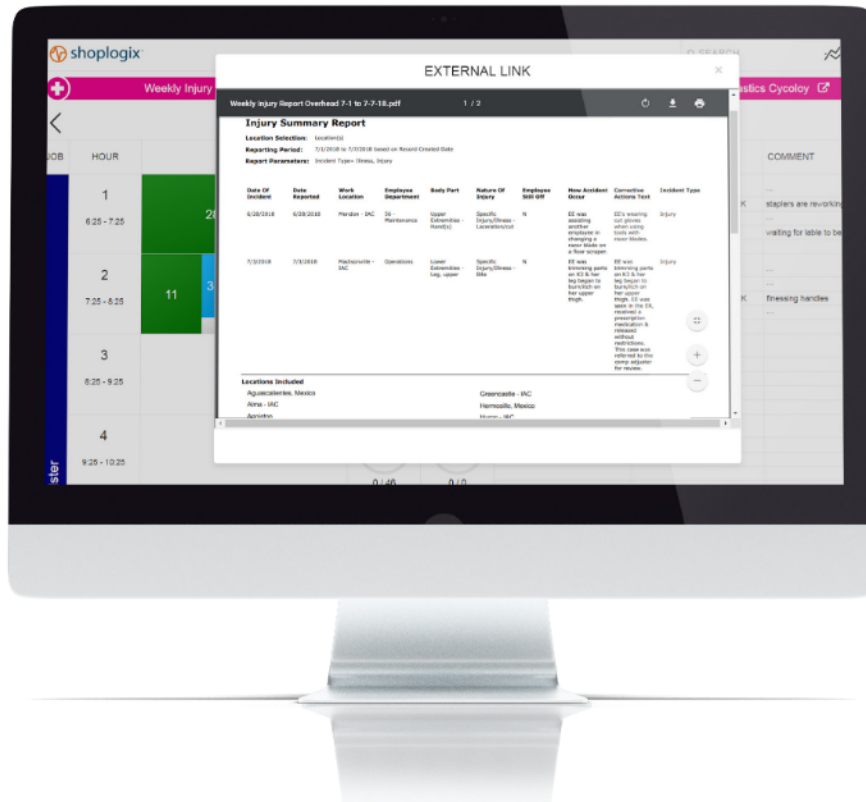

Traditional printed reports are unreliable and results in miscommunication, information loss, delays and critical mistakes.

With Shoplogix Messaging..

Transition from manual, error-prone paper communications to digital messaging to facilitate a paperless shop floor. With the ability to hyperlink and attach web-pages and PDFs, team members get the full picture of critical operations immediately without having to switch back and forth between platforms to open multiple documents.
